Monthly Rate Tuition payments must be paid in advance for the month of the students lessons. Example if your student is starting in September you would pay no later than the first of the month for September and then by the 15th of September you would pay for October, and then again the 15th for November and so forth. This allows the parents and the students to give warning if they are discontinuing classes for other activities or other various reasons; and also allows other students and parents who are waiting for class time slots, the notice needed for those opportunities for lessons.
